Summary

Energetic and fast-learning B.Tech student with hands-on experience in web development, data analytics. Passionate about building practical solutions and continuously improving technical skills.

Technical Skills

Programming	Python, SQL, HTML, CSS
Data Analytics	Excel, Pandas, NumPy
AI / ML	Basic ML, LLM, GenAI
Tools	Git, GitHub, VS Code, MS Office
Soft Skills	Communication, Leadership, Teamwork, Problem Solving

Experience

Web Development Intern

Sep 2024

AK Infopark Pvt Ltd, Nagercoil

- Developed a clothing brand website featuring structured product sections, responsive layouts, and optimized navigation for a smoother user journey.
- Improved UI responsiveness and reduced layout shift issues by refining CSS, adjusting breakpoints, and optimizing mobile rendering performance.
- Tools Used:** HTML, CSS, VS Code, Git, GitHub

Projects

AI-Enabled Smart Glass

Tech: Bluetooth BLE, Python, Mobile STT, LLM APIs, TTS

- Built a team-driven smart glass prototype integrating microphone, speaker, and a custom PCB for hands-free voice interaction.
- Implemented full voice pipeline: on-device audio capture, BLE transfer, mobile STT, LLM-based response generation, and TTS output.
- Improved accessibility through seamless voice commands, alerts, and low-power operation for real-world usability.

Sales Dashboard (Excel)

Tech: Pivot Tables, Slicers, Conditional Formatting, Charts

- Developed an analytics dashboard visualizing revenue trends, customer segments, monthly performance, and product distribution.
- Used Pivot Tables, Slicers, Conditional Formatting, KPI cards, and trend charts to create an interactive reporting system.
- Enhanced decision-making with clear visuals, easy filtering, and a structured layout suitable for management insights.

Clothing Brand Website (Live Demo)

Tech: HTML, CSS, Responsive Design, UI/UX

- Built a multi-page static website including landing page, gallery, offers page, and contact form.
- Implemented consistent UI with hover animations, clean spacing, and structured navigation.

Personal Portfolio Website (Live Demo)

Tech: HTML, CSS

- Developed a single-page responsive portfolio with project showcases and animation effects.
- Implemented smooth scrolling, custom CSS components, and mobile optimization.

Friday — The Life OS (Live Demo)

Tech: HTML, CSS, Local Storage

- Developed a browser-based life management system integrating Tasks, Calendar, Expenses, Reminders, and Memory tracking modules.
- Designed a clean, OS-inspired UI with modular sections and SPA-style navigation.
- Optimized for responsiveness and usability across desktop and mobile devices.

Education

St. Xavier's Catholic College of Engineering, Nagercoil

B.Tech in Artificial Intelligence & Data Science (2022–2026)

CGPA: 8.2

Training & Certifications

- Data Analytics Training — Pantech AI (Python, Pandas, ML)
- DTP Certification — Photoshop & CorelDRAW

Achievements & Activities

- Attended National Seminar on Digital Twin Technologies.
- Led U14 & U17 Kabaddi teams; active NCC participant.
