Summary

B.Tech graduate with hands-on experience in data analytics and web development, passionate about turning data into actionable insights. Fast learner with strong analytical and problem-solving skills, seeking opportunities as a Data Analyst.

Technical Skills

Programming	Python, SQL, HTML, CSS
Data Analytics	Excel, Pandas, NumPy, PowerBI, Tableau
AI / ML	Basic ML, LLM, GenAI
Tools	Git, GitHub, VS Code, MS Office
Soft Skills	Communication, Leadership, Teamwork, Problem Solving

Experience

Junior Developer Intern

Apr 2026

Z3connect, Nagercoil, Tamil Nadu

- Developed websites and landing pages using React.js, Next.js, and Firebase for improved performance and user experience.
- Worked on responsive web design, frontend development, and integration of backend services.
- Collaborated on optimizing UI components and enhancing website functionality for real-world client projects.
- **Tools Used:** React.js, Next.js, Firebase, HTML, CSS, JavaScript, Git, GitHub

AI & ML Intern

Aug 2025 – Oct 2025

Fortura Tech, Nagercoil, Tamil Nadu

- Worked with Python for data processing, automation, API integration, and application logic development.
- Analyzed datasets to support business insights and implemented basic machine learning workflows.
- **Tools Used:** Python, Data Analytics, Machine Learning, APIs, Automation

Web Development Intern

Sep 2024

AK Infopark Pvt Ltd, Nagercoil

- Developed a clothing brand website featuring structured product sections, responsive layouts, and optimized navigation for a smoother user journey.
- Improved UI responsiveness and reduced layout shift issues by refining CSS, adjusting breakpoints, and optimizing mobile rendering performance.(*Live Demo*)
- **Tools Used:** HTML, CSS, VS Code, Git, GitHub

Projects

AI-Enabled Smart Glass

Tech: Bluetooth BLE, Python, Mobile STT, LLM APIs, TTS

- Built a team-driven smart glass prototype integrating microphone, speaker, and a custom PCB for hands-free voice interaction.
- Implemented full voice pipeline: on-device audio capture, BLE transfer, mobile STT, LLM-based response generation, and TTS output.
- Improved accessibility through seamless voice commands, alerts, and low-power operation for real-world usability.

Sales Dashboard (Excel)

Tech: Pivot Tables, Slicers, Conditional Formatting, Charts

- Developed an analytics dashboard visualizing revenue trends, customer segments, monthly performance, and product distribution.
- Used Pivot Tables, Slicers, Conditional Formatting, KPI cards, and trend charts to create an interactive reporting system.
- Enhanced decision-making with clear visuals, easy filtering, and a structured layout suitable for management insights.

Friday — The Life OS (*Live Demo*)

Tech: HTML, CSS, Local Storage

- Developed a browser-based life management system integrating Tasks, Calendar, Expenses, Reminders, and Memory tracking.
- Designed a clean, OS-inspired UI with modular sections and SPA-style navigation.
- Optimized for responsiveness and usability across desktop and mobile devices.

Education

St. Xavier's Catholic College of Engineering, Nagercoil

B.Tech. AI & DS (2022–2026) CGPA: 8.2

Training & Certifications

- Data Analytics Training — Pantech AI (Python, Pandas, ML) | DTP Certification — Photoshop & CorelDRAW

Achievements & Activities

- Attended National Seminar on Digital Twin Technologies. | Led U14 & U17 Kabaddi teams | Active NCC participant.
